

HEALTHY HAYWOOD

A Program of the Haywood County Health Department
and a certified Healthy Carolinians Partnership

Healthy Haywood is a collaborative community partnership dedicated to improving the overall health status of Haywood County residents.

Our coalition is not a project, but a process, to bring together community members to focus on health.

Healthy Haywood is based on the concept that community members are the most qualified to effectively prioritize the health issues in their community and to plan and execute creative solutions to these problems.

Based on data collected from Haywood County citizens and current health statistics, health action teams are determined by the community every four years. Various health topics will emerge as the coalition grows and health concerns in the community change.

Our health action teams meet regularly in an effort to make Haywood County citizens healthier. These groups plan, coordinate, and volunteer for various programs, events and activities. They also promote healthy policy changes in your community.

Working to help citizens bring about change for healthier lives.
Together we can improve quality of life.

We are in Collaboration with: EveryBody, EveryDay, EveryWhere

Join a health
action team today!

Contact the coordinator and
see how you can be involved.
